TO: ALL INTERESTED BROADBAND INTERNET SERVICE PROVIDERS

FROM: THE PUERTO RICO DEPARTMENT OF EDUCATION

RE: REQUEST FOR INFORMATION FOR TELEWORK AND HOME BROADBAND INTERNET SERVICES

The Puerto Rico Department of Education (the “Department”) is requesting information regarding residential broadband internet services for all of our teachers, students and administrators. This RFI is being sought strictly for the purpose of collecting information regarding services available in Puerto Rico, including an estimate of costs, to assist the Department in determining the feasibility of delivering internet services for Department constituents throughout the Territory of Puerto Rico. To this end, the Department invites all interested internet service providers to submit a written response to this Request for Information for Telework and Home Broadband Internet Services (“RFI”).

This RFI should not be construed as an intent, commitment or promise to purchase the services offered by respondents, and no contract will result from any response to this RFI. Information submitted in response to this RFI shall become the property of the Department, and the Department shall not be liable for any costs incurred by any respondent in preparing a response to this RFI.

Sincerely,

THE PUERTO RICO DEPARTMENT OF EDUCATION

1. DEPARTMENT OVERVIEW

The Puerto Rico Department of Education (the “Department” or “PRDE”) is the government agency that directly runs and operates Puerto Rico’s public school system. Unlike most states, the PRDE acts both as a State Educational Agency (SEA) and as a Regional Education Offices. Information concerning the approximate size of the PRDE school system is as follows:

<table>
<thead>
<tr>
<th>THE PRDE SCHOOL SYSTEM</th>

<tr>
<td>Students: 283,911</td>

<tr>

</tbody>
</table>

The PRDE educational system is divided into 7 Regions (Arecibo, Bayamon, Caguas, Humacao, Mayaguez, Ponce, and San Juan), as illustrated on the following map:

2. RFI OBJECTIVE

The Puerto Rico Department of Education is exploring the feasibility of providing home broadband internet services for all administrators, teachers and students throughout Puerto Rico. Based on the challenges faced after Hurricanes Irma and Maria, as well as recent (and ongoing) earthquakes, and the uncertainty surrounding COVID-19, the Department is pursuing providing high speed broadband internet to all of PRDE constituents. At present, it is estimated that only approximately 40% of students have internet access at home. In
addition, approximately 69% of teachers have internet access at home (based on the results of a 2019 teacher survey conducted by the Federation of Teacher of Puerto Rico (FMPR) union and the National Union of Educators and Education Workers (UNETE) shown below). All students and teachers need home internet in order to continue teaching and learning in the Coronavirus environment. This is especially true, as the Department is scheduled to begin distributing iPads and laptops in June 2020 to its 278,929 students and 30,000 teachers, respectively.

PRDE is issuing this RFI to gather information and interest from service providers of high-speed broadband internet services for affordable, reliable high-speed residential internet access for throughout Puerto Rico, including the islands of Vieques and Culebra.

The Department seeks ideas and interest from respondents on how to achieve the sole object to provide high-speed residential broadband internet service throughout Puerto Rico. High-speed broadband internet service can include, but is not limited to, the deployment of a fiber-to-the-home solution, fixed wireless solution, or some other type of last-mile solution. Interested parties should provide information on how their services can meet the FCC’s broadband benchmark speeds of 25 megabits per second (Mbs) for downloads and 3 Mbs for uploads (https://apps.fcc.gov/edocs_public/attachmatch/DOC-331760A1.pdf).

3. SUBSEQUENT SOLICITATION

PRDE intends to evaluate the information gathered through this RFI process to determine whether to proceed with a formal Request for Proposals (“RFP”). This issuance of this RFI does not guarantee or represent a commitment by PRDE to issue an RFP or other formal solicitation. The Department reserves the right to cancel this RFI at any time.

4. HOUSEHOLD INFORMATION

PRDE is committed to providing quality education for our residents and businesses. The following graph provides a snapshot of the housing data in PRDE.
Because areas of PRDE are currently underserved or have no internet service, PRDE wishes to obtain high-quality internet access at the benchmark speed designated by the FCC (see https://www.fcc.gov/document/fcc-finds-us-broadband-deployment-not-keeping-pace) for its citizens, and to encourage economic development.

The Department believes that increased deployment of affordable home broadband internet services is key to its ability to continue delivering quality education and distance learning to all public school students in the U. S. Territory of Puerto Rico. Respondents to this RFI should provide information pertaining to respondents’ ability to help the Department achieve this goal.

5. REQUESTED INFORMATION

Each respondent shall include all of the information set forth below in their response.

5.1. RESPONSE COVER SHEET (ATTACHMENT A)

5.1.1. Provide all of the information requested on the attached Response Cover Sheet.
