RFP PRDE(ER)-2020-01

ADDENDA NO. 4

PRDE hereby issues Addenda No. 4 to RFP PRDE(ER)-2020-01 in response to request submitted by a proposer.

1. Remove from the RFP the requirement that proposers provide the Program Management Services Platform.

Answer: No. PRDE has determined that it is in its best interests, as well as those of the project that the chosen proposer provide a program management platform.

2. Eliminate restrictions that violate proprietary rights and intellectual property laws that protect vendors of platforms that serve a wide range of clients.

Answer: ATI Police ATI-017 regarding source code and copyrights requirements apply only to software programs or applications that are custom made for a Puerto Rico Government Agency. They do not apply to commercially available platforms licensed by a provider. For more on this subject please refer to Addenda No.1.

3. Provide to all proposers the information of all Program Management Services vendors (if any) that PRDE or COR3 is aware that comply with all the requirements for such services in the RFP.

Answer: Neither PRDE nor Cor3 have a preference for any specific commercially available platform and will evaluate all proposals submitted.
